I have been battling with creditors whom subjected me to unfair treatment on the contracts I had. I went to Credit Ombudsmen and bank Ombudsmen without help. There were no help at all while banks were running parallel process to repossess my car. It didn't matter what I did to stop the process as while you talk to compliance, recovery sends people to collect assets. One could tell that there were no communication between those parallel processes attacking a helpless customer.

I was then refereed to a company called Credit Info Academy SA which brought peace to my life. The company successfully explained the legal process adequately and gave advices on what steps to be followed with regard to my case. The company have demonstrated a well sound understating of law and passion to protect consumers against cruel creditors. Their approach to cases are done with high level of respect to both consumers and creditors. They have demonstrated interest in law and willingness to help in dispute situation.

I recommend that Credit Info Academy SA be given opportunity to be an alternative dispute resolution agent in South Africa. This will benefit many consumer whom were troubled by cruel creditors whom want to maximise profit and the expense of consumers illegally. The move will bring new dawn for the helpless consumers in South Africa

when I got divorced in 2007 I was left with nothing and listed on itc life was hell and all my financial needs were put on hold until a friend of mine told me about this company. At first I thought it was just another scam bcoz so many companies had promised to clear my name but failed. This company cleared everything I had on itc. It was like a dream come true. I got vehicle finance and cash loans from Nedbank and ABSA. I highly recommend this company to anybody with itc problems. This is a company that really delivers and if they could end my financial nightmare I'm sure they can solve your itc problems as well. So stop wasting your time and money on empty promises and contact the company that delivers Credit Information Academy SA

Credit info Academy SA has been the best company that I have ever encountered. The service that I received from this company is unbelievable. I was updated every step of the way. If I emailed or called, I received feedback which was very helpful to me and kept me knowing exactly how far along in the process I was with regards to clearing my name. I will definitely recommend this company to anyone who is facing any issues regarding their credit status and anything credit related. I actually built a very strong relationship with the CEO of this company, Cynthia.

She helped me when I was at my lowest and empathised with what I was facing and also checked in every once in a while after the fact. This type of service is the kind I dream about for all service providers in our country.

Good Evening

I would like to take this opportunity to thank you for your time and consideration of my bad credit history and profile.

I remember when I called you first time and asked about your service you were willing to help from the first call that I have made to you.

I remember I owed close to R500 0000. 00 and the worse account was R199790. 00 and I did not believe when you removed it from credit bureau. And I had more than 9 impaired accounts. But the manner in which you helped me I never thought that one day I will own brand new car and own my property and be granted credit again.

Today as I write a have learn a lot and you have been part of my financial freedom. I own a vehicle and property.

Your services are extremely excellent after I have lost lot of money from bogus people who claim can remove you from ITC.

May good Lord bless you and your entire best team

Regards

Good morning Cynthia,

I hope you are well. I have had quite a busy start to the day and only found an opportunity now to type you this email. I would like to just thank you for being a shoulder for me. You have given us room to breathe and you have also made us see that there will be light at the end of the tunnel. My husband got the notification yesterday.

I can't tell you how much we appreciate all that you have done and continue to do for us. You are giving us a second chance at a normal life. I wish blessings in abundance upon your life. You are a kind and caring soul. I know that you are assisting us in your professional capacity, but for me you have also become a friend. I know that my husband and I still have a way to go to resolve our financial issues, but again just having a moment to breathe means more to us than you will ever know and that includes our little 8 year old son.

Have an amazing and blessed day further.

Kind regards,
